

SAMIKSHA BHADE

Backend Developer · Node.js · REST APIs

github.com/SamikshaB-14 | linkedin.com/in/samikshabhade66 | Bengaluru | +91 76489 66112 | samikshabhade80@gmail.com

PROFESSIONAL SUMMARY

Backend Developer with 1+ year of experience building production-grade RESTful APIs and real-time systems for live iGaming platforms. Delivered end-to-end backend features across 3 live platforms (Sportsbook & Casino) serving international markets, covering responsible gambling, gamification, affiliate management, and third-party integrations. Skilled in Node.js, React.js, SQL, WebSockets, and agile delivery.

TECHNICAL SKILLS

Languages	Java, JavaScript (ES6+), SQL
Web Tech	Node.js, Express.js, React.js, HTML5, CSS3
Backend	RESTful API Design, JWT Authentication, Queue Workers, Async Processing
Databases	MySQL, PostgreSQL — CRUD, schema design, indexing, query optimisation
Soft. Engg.	Data Structures & Algorithms, OOP, System Design, REST APIs, MVC Architecture
Tools	Git, GitLab, GitHub, Postman, Docker (Basic), VS Code

WORK EXPERIENCE

GammaStack – Solution Engineer (Backend Developer)

Mar 2025 – Present

Bengaluru, India

- Designed and developed production RESTful APIs for 3 live iGaming platforms (Sportsbook & Casino) serving international users.
- Built real-time WebSocket systems for bonus alerts, tournament updates, group chat, and chat moderation across platforms.
- Integrated Mailjet, Customer.io, and SMSCountry; built async queue workers for high-throughput tournament event processing.
- Optimised SQL schemas and queries for KYC, transactions, and reporting modules; reduced query load on performance-critical paths.
- Reviewed code for consistency and maintainability; debugged production issues by analysing logs and service dependencies.

Kodnest – Full Stack Developer Intern

Jun 2024 – Feb 2025

Bengaluru, India

- Developed end-to-end full-stack applications in Java, SQL, HTML, CSS, and JavaScript following MVC architecture.
- Practised Role-Based Auth patterns and applied Code Review best practices across team projects.
- Strengthened core understanding of distributed client-server systems and applied Performance Optimisation techniques.
- Improved problem-solving and algorithmic thinking through consistent DSA practice.

PROJECT EXPERIENCE

Betcheif – Nigerian iGaming Platform | Node.js · Express.js · SQL · Sequelize · 6 months

- Built CRUD APIs for core modules: tournaments, bonuses, back-office player management, bank reports, and casino management.
- Developed advanced filtering, manual KYC workflows, and secure password-reset flows for admin and player-facing portals.
- Delivered RESTful back-office APIs enabling admins to manage players, transactions, and platform configurations.

Flextrade – Sportsbook & Casino Platform | Node.js · SQL · Mailjet · WebSockets · 1.5 months

- Implemented full responsible gambling suite: deposit, withdrawal, bet, and loss limits (daily / weekly / monthly).
- Integrated Mailjet for transactional and trigger-based email flows; built queue workers for async tournament processing.
- Developed WebSocket-based bonus notification system; resolved critical pre-launch bugs for a stable go-live.

Micro Maldives – Casino Platform | Node.js · SQL · Customer.io · SMSCountry · JWT · WebSockets · 2 months · Ongoing

- Built gamification engine, loyalty program, referral system, affiliate management, and responsible gambling modules.
- Integrated Customer.io for event-driven email campaigns and lifecycle messaging across the player journey.
- Implemented JWT-based auth with email/phone verification; integrated SMSCountry for OTP-based phone auth.
- Delivered real-time WebSocket features: push notifications, group chat, and chat moderation tools.

EDUCATION

Bachelor of Engineering in Computer Science

May 2024

Annie Institute of Technology and Research Center, Chhindwara · CGPA: 8.15

12th Grade – PCM

March 2020

Sun Flower Hindi English Medium H.S. School, Chhindwara · 75%
